

## TIBCO EBX 5-6 Differences Training

Duration 1 day

This 1-day training provides an overview of the improved and new functions in EBX 6.

### Objectives

The EBX 6 differences training provides an overview of the changes in EBX 6 and its add-ons from a user, administrator, and developer perspective. Topics covered are e.g., navigation and search, changes in dataspace and data model with the new search strategies for text fields, new workflow diagram editor, workflow launcher and publisher. For the developer there is an overview of new and deprecated functions, SQL queries and adjustments in the REST interface. A brief overview of new features in the EBX add-ons is provided: the new graphical editor for Data Exchange, the brand-new Match & Merge add-on, profiling and the set up KPIs in Insight and the new application for EBX on the smartphone. The training ends with some tips & tricks for the migration from EBX 5 to EBX 6.

### Participants

EBX User  
EBX Developer  
EBX Administrator

### Required experience

EBX 5 Foundation

### Agenda

EBX Foundation  
EBX Development  
Administration  
EBX Add-ons  
Migration

## SYSTEMATION

Master Data Management is a key and fundamental process. Changes need to be accommodated in an agile manner as your organization continues to develop. The better supported the more you benefit from MDM.
